

[A Beauty Scoop](#)

December 7th, 2010

Hello my loves! While on a “brief” hiatus from *all* things electronic, I decided to take the time to try out a new product called [BeautyScoop](#). In my fab industry the most asked question from *everyone* is what is the secret to youthful, radiant skin, shiny, lustrous hair, and gorgeous healthy nails? The answer is simple. Treat it from within. This amazing (*to say the least*) product is an all-natural, edible beauty accessory, and is a pure powder for immediate absorption. It’s unique peptide and lipid formula provide key building blocks to boosts the body’s own regenerative power to reduce the appearance of fine lines and wrinkles, add shine to hair and grow nails faster and stronger.

[BeautyScoop](#) is reinforced with key vitamins and minerals that act as catalysts to correct and enhance beauty naturally, from within. Unlike topical products that stop working when they are washed off, [BeautyScoop](#) works from inside to provide rapid and long-lasting results! The best part is that it is delicious and easy. The 21- day supply is individually wrapped for your convenience and you simply add one packet to your favorite beverage, or you can try one of their delish smoothie [recipes](#).

The Result: My skin looks fantastic! my hair grew 2 inches and my nails have *never* been stronger, longer and healthier! So, if you’re looking for an easy, delicious and effective way to nurture your looks give it a try. Plus, with a name like *Beauty Scoop* you can’t go wrong. 😊

LOVE AND GREAT LIPGLOSS~
CHANTAL
