Is it really possible to be more beautiful in three weeks by mixing a daily scoop of powder in your drink of choice? The creators of BeautyScoop say it is.

BeautyScoop was co-founded by a Manhattan-based plastic surgeon. The powder provides 'essential peptides and lipids'. They say these ingredients will give you a youthful glow, reduce the appearance of your wrinkles, provide luster and intensify shine to your hair, and strengthen your nails.

A three week supply costs \$95.

I have to say that I was a bit nervous to try BeautyScoop. I have always had terrible skin, nothing has every done the trick. I mean nothing...not even dermatologist prescribed products. So I figured what do I have to loose. Well let me tell you this made such a huge difference!

My skin is bright, tighter, and fresher! Its like I'm a new person. On top of that my nails and hair look better, which was a great extra improvement! I am totally addicted to this stuff. It taste amazing too. Totally worth trying!
