absolutely...depending on the ingredients... for about six months now, ive been taking daily glow with omega3 vitamins from genuine health...ive seen a huge improvement in the texture of my skin and texture of my hair i think anything taken internally has better lasting effects than anything you take externally....

I have to say I was really excited to try an edible beauty product. I never have tried on before. Well let me tell you this was the best purchase I have ever made! My hair and skin make me look 5 years younger! They have come to life again. Plus my nails are super strong now. Thanks-Kerry

Hey. I have to say that I absolutely love BeautyScoop. Normally suppliments scare me away with synthetic fillers, but BeautyScoop is all natural. Thats why I decided to give it a shot. It was really worth the price. I'm 4 months in an loving it!

xo

Lauren
